

Thibault Lesecque

Odoo / Python / Full-stack product development

thibault.lesecque@outlook.com tlesecque.com

01 / PROFILE

I build practical software for real business needs. Professionally I focus on Odoo and Python — custom modules, integrations, and workflows that fit how companies actually operate. Independently I build full-stack products with TypeScript and Next.js.

Open to junior engineering opportunities, Odoo/Python work, and practical web products.

02 / EXPERIENCE

01 **Odoo Development** **CURRENT**

SOFTWARE ENGINEER

Custom Odoo modules, integrations, and end-to-end workflows tailored to how a company actually operates.

- Python
- Odoo ORM
- QWeb
- PostgreSQL
- APIs
